Hello,

Thank you for joining our first Town Hall meeting, we hope the session was informative and provided insight on current HOA activity. We also appreciate the thoughtful questions that were brought forth during the meeting. For those who were unable attend, we have attached a copy of the presentation deck for your review.

Supplemental documents related to our discussion about the common areas are also attached for reference:

- Landscaping Plan marked up to show the new/enlarged areas requiring maintenance
- Stormwater Management and Vegetated Strip docs showing the areas that we are responsible for

Thanks again for joining us, please let us know if you have any questions or would like more information.

- The Briar Oaks BOD
